Reilly, respectively." Hall, in 1855, made a contract with the United States surveyor-general of California to survey

sarreyor-general of California to survey
the public lands, and it is charged that he
did not survey them all, but platted the
lands in his office without over making a
survey, and returned the plats with fielitious field notes to the surveyor-general,
accompanied by an affidavit stating that he
had done the work as required by contract.
It is averred that Perrin and Reilly were
also guilty of making false affidavits, and
Perrin and others are, in addition, charged
with conspiracy to definant the government. The defendants were all indicted
for forgery. They took exception to the
indictment, contending, among other
things, that the offense allered was not
formery as it was not charged that they had
falsely simulated other persons' writing,
out that they, in their own hundriffing
made false statements of facts.

Last Monday night the Sunday school union convened in the First Ward assembly rooms, where a very entertaining and instructive programme was enjoyed by a growded house.

There is no reason why our fair district should not be well represented at the ap-proaching territorial exposition. We have the material; all that is needed is a little ambition to push it to the front.

The principal thoroughfares of Brigham have been so infested with questionable characters of late, that the place has apparently become a rendezvous for the tramp kingdom, in this part of the country. Yesterday merning while and of Brig ham's bloods was being carted along Mai street at a lively rate, the horse becomin frightened, made several tremendous langes, thening the eart over and soon,

that such treatment was rather tough.

The paramount theme that at present agitates the minds of the people of Box Eider is the Bear river project. The scheme is estimated to involve over \$1,000,000. Mr. Jehn R. Bothwell, of New York, contracting with Mr. Kerr, of the Cornne Mill and Stock company, has assumed the responsibility of bringing out Bear river on the north side for the purpose of watering a large tract of dry land. Extensive surveys have been made from a point a little above the falls both up and down the river; the former survey was run some distance into Cache valley to accertain the amount of land subject to intundation, providing it
